

Script:

Hi! Welcome to the Frame Fusion photo app. This app allows you to upload or take photos and see what your friends are posting. Today, you'll be testing the app by completing three simple tasks designed to evaluate its features and functionality. Just to clarify, you're not being tested—only the app is. Your insights and feedback will be incredibly valuable.

Throughout the testing process, I won't be able to answer any questions you may have, but feel free to express your thoughts out loud as you navigate the app. This will help us understand your experience better. If at any point you feel like stopping the test, you're completely free to do so.

The first task is to create an account and change the username.

The second task is to upload a photo and post it.

The third task is to find a friend's favorite photo and save it.
